Austin, MN Sustainability/Resilience Questionnaire

The City of Austin is looking for new opportunities to enhance sustainability and resilience in the community through its comprehensive plan update. The purpose of this survey is to get an initial sense of what residents' concerns as they relate to resiliency.

Resilience is the ability to prepare for and adapt to shocks and stresses due to a changing climate. We want to ask a few questions to get a better understanding of priorities as they relate to resilience. You do not have to answer any questions you are not comfortable answering.
